Sea Prince

Sea Prince all natural Abalone is a cut above the rest,
and is a must for those who only accept the best in fine dining.

This all natural Australian Abalone is one of the finest most delicious Abalone prepared in the world, and it's right here on our doorstep, from the cool clean Southern Ocean. The cooler ocean helps bring out a rich and sweeter flavour, with a soft and consistent texture, making it the ultimate eating experience. Abalone has long been used for its traditional Chinese medicinal properties, having many health benefits with a good source of vitamins and minerals. This all natural Abalone is wild harvested by hand by licensed divers who are limited to an annual quota.

*Soft ready to eat texture requiring no further cooking, just slice and serve.

*Already natural and delicious real taste of Black Lip Abalone.
